

LOJOHN MATTHEW LUBI

Software Engineer | Full Stack Developer | Web Developer

Dasmariñas City, Cavite, Philippines

0948 924 4387 · matthewlubi.dev@gmail.com · github.com/winraaawr · matthewlubi.pages.dev

SUMMARY

Software engineer with nearly three years of professional experience building reliable, scalable, and maintainable web applications. Experienced in database design, third-party API integrations, automated testing, code reviews, technical leadership, and agile software development

TECHNICAL SKILLS

Proficient in Laravel, PHP, MySQL, PostgreSQL, Vue.js, JavaScript/TypeScript, Git (Github), TailwindCSS, HTML/CSS; **Familiar** with Nuxt.js, Next.js, Inertia.js, GSAP, AWS, Linux, Docker, Playwright, Supabase;

PROFESSIONAL EXPERIENCE

Associate Software Engineer

September 2023 – May 2026

PurpleBug Inc — Marketing Technology Company

Ayala, Makati

Tech Stack: Laravel, Vue.js, Inertia.js, TailwindCSS, MySQL, PostgreSQL, AWS, Amazon Linux, Docker

- Designed and developed scalable database architectures for **chatbot** and **web applications**
- Optimized and enhanced web applications by resolving inefficient database queries to improve **performance, reliability, and maintainability**
- Integrated third-party APIs for **Meta platforms including Facebook and Instagram, TikTok**, and e-gift and voucher services such as **Giftaway**
- Wrote and maintained end-to-end tests using Playwright to validate critical application workflow
- Performed code reviews and provided feedback to **improve code quality** and maintain coding standards
- Served as a lead software engineer for a project, supporting technical decisions, coordinating implementation, and guiding development work

Web Developer Intern

September 2022 – January 2023

ROC.PH Digital Marketing Services

Remote, Philippines

Tech Stack: WordPress, PHP, MySQL, HTML, CSS, JavaScript, jQuery, Bootstrap

- Maintained and updated **WordPress** websites to ensure performance and content accuracy
- Designed and developed responsive **WordPress** pages
- Spearheaded the development of a **Human Resource Information System (HRIS)** using PHP (MVC), JavaScript, and jQuery
- Led and mentored fellow interns as **Intern Team Leader and Assistant Team Leader**
- Coordinated tasks and supported team members to ensure timely delivery of projects

NOTABLE PROJECTS

(AIO) ALL-IN-ONE CHURCH MANAGEMENT SYSTEM

July 2026 - Present

An ongoing web application for managing church membership, attendance, finances, events, and content. Built with **Next.js, React, Supabase (Auth, PostgreSQL, Object Storage), Vercel**.

CAPSTONE PROJECT: CAKEY AN ONLINE CAKE ORDERING SYSTEM

April 2023

An e-commerce web application that enables pastry shops to manage products, customer orders, and business report generation. Built with **PHP, MySQL, JavaScript, jQuery, HTML, CSS, Bootstrap**
